

National Coalition For Assistive & Rehab Technology

WHO WE SERVE

WHO WE ARE.

NCART and US Rehab work with manufacturers and suppliers of Complex Rehab Technology (CRT) Equipment to ensure individuals with disabilities and complex medical needs receive the equipment they need to live their life to the fullest.

WHAT IS CRT EQUIPMENT?

CRT includes medically necessary and individually configured manual and power wheelchairs, seating and positioning systems, and other adaptive equipment such as adaptive bath equipment, standing devices, gait trainers, specialty beds, specialized strollers, and etc. This specialized equipment requires evaluation, configuration, fitting, adjustment, or programming to meet the individual's medical needs and maximize function and independence. These products are designed to meet the specific and unique medical and functional needs of an individual with a primary diagnosis resulting from a congenital disorder, progressive or degenerative neuromuscular disease, or from injury or trauma.

**PEOPLE WHO REQUIRE CRT EQUIPMENT**

- *Amyotrophic Lateral Sclerosis (ALS)*
- *Arthrogryposis*
- *Cerebral Palsy (CP)*
- *Multiple Sclerosis (MS)*
- *Muscular Dystrophy (MD)*
- *Osteogenesis Imperfecta (OI)*
- *Spina Bifida*
- *Spinal Cord Injury (SCI)*
- *Traumatic Brain Injury (TBI)*
- *And many other diseases and diagnosis that utilize CRT equipment*

CRT SERVICES NOT RECOGNIZED BY CMS AND INSURANCE

- *Preventative maintenance*
- *Travel time to the client*
- *Evaluation time for the original equipment or repairs*

156,478

Adults have a disability (About 29% or 1 In 3 according to the CDC.)

15,648

Have a mobility disability.
